

All music except the cocktail hour playlist will be downloaded and played from Tim's iPad. The password on the iPad has been disabled.

#### (GM) Pre-Ceremony

Device: I-pad

##### **16:45 - [Pre-Ceremony Playlist](#)**

Set it going for eager beavers. Stop when most guests are seated and we're ready to start.

#### (VW) Ceremony

Device: I-pad

Speaker, and therefore I-pad, is likely going to be near the back of the ceremony location near the north-east pillar. Shaine, the Coordinator's assistant, will be there greeting people. You can ask her where things are.

(Times are approximate)

##### **17:15 - Kooks**

Processional song. Our coordinator, Molly, will cue you.

I think there's an okay ending point around 1:37 in, which hopefully the walkers will all fit into.

The last pair to walk will be ShuFang and Henry. When they're seated, you can cut the music.

##### **In My Life**

Bridal song.

I'm going to try to make it up there by the end of the first phrase at like 00:56 in even if I have to run!

##### **17:45 - 5 Years Time**

We'll be walking away to this song. Our officiant, Judge Henry, is going to say some things even after the exchange of rings, I think? So just press play when we actually start walking.

We'll have the sound people bring the I-pad to the reception room, so you are free to go after the ceremony ends.

#### (GM) Cocktail Hour

Device: Tim's Phone

##### **17:55 - [Cocktail Playlist](#)**

Just set it going as soon as you're in range.

**18:55** - Stop music. MC's, Henry and Graham, will make an announcement for guests to go inside and gather around the dance floor.

VW - make your way inside to where I-pad connects to inside speakers

#### (VW) First Dance

Device: I-pad

**19:00 - Q&A**

MCs, Henry and Graham, will say something like “please welcome Tim and Lily who are super married!” which will be the cue to start the music. Tim and I will be standing at the edge of the dance area and walk on after the music starts.

(VW) Dinner

Device: I-pad

**19:05 - [Dinner Playlist](#)**

Start this playing as people find their seats after the first dance. We'll want this to be quite a bit quieter, so I would turn down the volume on the I-pad. We'll have the sound person turn the music on/off during speeches, so no worries during dinner!

**19:20 - Miller Speech (During Salad)**

**20:05 - Zhao Speech (During Mains)**

**20:30 - Cake Cutting**

The sound person will turn the music off for the cake cutting

MCs: Announce the cake cutting.

(VW) Dancing

Device: I-pad

**20:35 - [Dance Playlist](#)**

To start after cake-cutting and Tim and I do a cute I'll speech. Start it going and never stop it!
